

hi! thanks for downloading ANTi zine issue #4. we greatly appreciate your support! if you'd like to support the project, get involved, or if you'd like to just learn more, please visit [www.ANTiZine.SuperHi.com](http://www.ANTiZine.SuperHi.com).

print settings:

- page range for print: 2-9 (to avoid printing out this instruction page)
- page orientation: landscape
- print on both sides, flipping on the short edge (sometimes you have to manually flip the pages... your printer will notify you with a pop-up, usually)
- black and white or color!

once printed, take the first three pages and fold in half - hamburger style- to form a booklet. staple and trim if you wish.

the last page is not a page of the zine, it is a zine! learn how to fold and cut this paper to make a zine:

<https://austinkleon.com/2020/03/04/how-to-make-a-zine-from-a-single-sheet-of-paper/>

the back of the pages should have a lovely pattern, if your printer settings were correct! both the zine and pattern were created by Billy B.

ISSUE #4

ANTI zine is a quarterly anthology zine that is focused on invoking an anti-capitalist praxis in our community. That's just a fancy way of saying, we strive to encourage people to practice self-sustaining lifestyles and reject consumerism + materialism. Our goal is to act like an encyclopedia of sorts for all things ANTI-capitalist, and therefore, ANTI-racist, ANTI-classist, and ANTI-sexist. Lastly, we want to act as a resource for starting where you are, with what you have. Thank you to this 4th cohort of contributors. <3

Compiled + edited by Mia Makes it  
Background illustration by Billy B.

CAPITALISM GOT YOU DOWN? HERE ARE SOME THINGS YOU CAN DO, RIGHT NOW\*:

1 INTRODUCE YOURSELF TO YOUR NEIGHBOR.

2 RESEARCH FOOD THAT GROWS WELL IN YOUR AREA, WHEN TO PLANT THEM, THEN BEGIN TO SOW THE SEEDS! SHARE YOUR PRODUCE WITH UR LOCAL FOOD NOT BOMBS, YOUR NEIGHBORS, ETC.

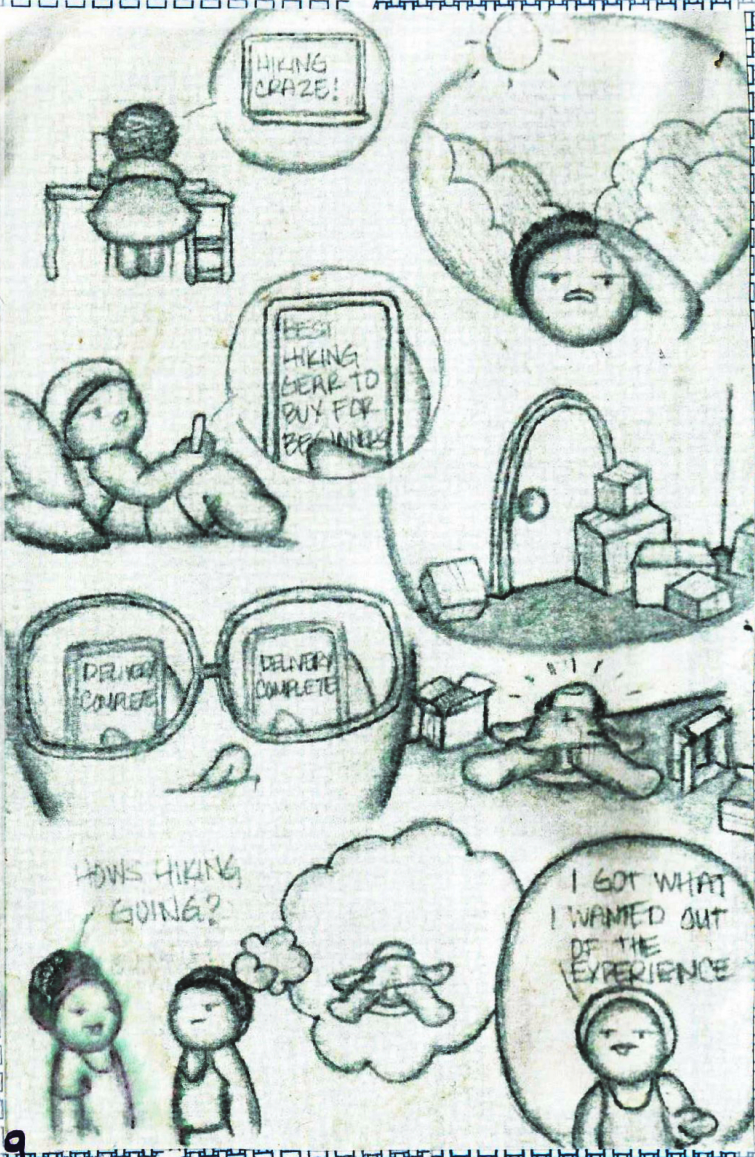

homework

3 THINK ABOUT WHAT YOU NATURALLY ENJOY DOING.

- do you like design?
- do you like to be outside?
- are you good at coordinating and planning events?
- do you enjoy cooking?

NOW, FIND AN ORG NEAR YOU, AND SEE IF THEY NEED YOUR HELP!

# LETTER FROM THE EDITOR ~

Hi all - it's Mia. I wanted to pop-in to celebrate the close of year one for ANTiZine! I began compiling issue #1 in January 2024 with no set plan - I just wanted to make a zine w/ my friends. Then, after warm reception of the first issue - debuted @ St. Pete Zine Fest - I decided to release an open call for the second issue. I ultimately decided to commit to publishing this thing on a quarterly basis. Since then, more than 20 people across the USA have made contributions! Thank you!

My vision for next year is to open up subscriptions for the zine, and hopefully raise some money for printing costs. I plan on reaching out to St. Pete's local paper - The Sapphic Sun - to see how they've organized.

Until then, check out our site: [www.ANTiZine.superhi.com](http://www.ANTiZine.superhi.com)  
I'll see you next year!

-Mia

# DIVINE MACHINERY, CONT.

"The design features over 1,200 keyboard keys on the dress with messages hidden throughout including "consumerism", "greed", and "e-waste". Central to the design are circuit boards from recycled medical equipment, computers, and gaming consoles. Over 250ft of VHS tape, wire, and computer cords make up the wings."

"Conceptually, the design themes include corporate greed, consumerism, e-waste, the worship of false prophets, and planned obsolescence. Planned obsolescence is when corporations intentionally design products to have short life-spans and constantly release new designs so the consumer constantly buys new products. This corporate greed leads to e-waste being the fastest growing waste problem in the world. The design represents how technology, being seemingly all-knowing and omnipotent, becomes the angels we worship-- without fully understanding its consequences. It is a caution against worshipping modern tech companies as our saviors and guiding lights."

-Halley Spencer
